## PROJECTS

### PATAGONIA RENT

Ago 2021 - Sept 2021

- I coordinated the team of work and developed a web page for a tourist complex, surrounded by forest, in a quiet mountain neighborhood near San Carlos de Bariloche. The objective was to let users be able to get in touch in a fast and save way with the owner.
- It was developed based on a FIGMA design, using **Bootstrap** and **CSS** styles.

### ~ ACADEMIC PROJECTS ~

### JUIRA MARKET

Oct 2022 - Nov 2022

- Design and develop as a team, with Scrum methodology, a market-place for second-hand items between users, but regulated in order to avoid scams.
- Developed with React-Redux, with Material UI styles and consuming the database in PostgreSQL and Sequelize, the backend developed with Express. Login with authentication using Firebase and user notification system by nodemailer.
